- 5.1. It is important for the Client to understand the risks involved before deciding to enter into a trading relationship with the Company. If the Client chooses to enter into a trading relationship with the Company, he/she should remain aware of the risks involved and be able to have adequate financial resources to bear such risks.
- 5.2. The financial instruments offered by the Company are high-risk products that are traded on margin and carry a risk of losing all Client's initial deposit. These kinds of products can fluctuate significantly and present a high risk of capital loss; therefore, these products may not be appropriate or suitable for all Clients and the Client should seek independent advice should he/she not be able to understand the risks involved.
- 5.3. **General Risks and Acknowledgements:** The Client acknowledges, understands, agrees and accepts the risks including but not limited to:
- a) the Company does not and cannot guarantee that funds deposited in the Client's Account for trading will not be lost as a result of the Client's transactions.

 - c) the Client acknowledges that he/she runs a great risk of incurring losses and damages as a result of the purchase and/or sale of any financial instrument and accepts that he/she is willing to undertake this risk.
 - d) the use of historical data does not constitute a binding or safe forecast as to the corresponding future performance of the financial instruments to which the said information refers.
 - e) the Client is hereby advised that the transactions undertaken through the dealing services of the Company may be of speculative nature. Large losses may occur in a short period of time and may be equal to the total value of funds deposited with the Company.
 - f) some financial instruments may not become immediately liquid, for example, as a result of reduced demand and the Client may not be in a position to sell them or easily obtain information on the value of these financial instruments or the extent of the associated risks.
 - g) when a financial instrument is traded in a currency other than the currency of the Client's country of residence, any changes in the exchange rates may have a negative effect on its value, price and performance.

- h) a financial instrument on foreign markets may entail risks different to the usual risks of the markets in the Client's country of residence. In some cases, these risks may be greater. The prospect of profit or loss from transactions on foreign markets is also affected by exchange rate fluctuations.
- i) the Client should not purchase a financial instrument unless he/she is willing to undertake the risks of losing entirely all the money which he/she has invested and also any additional commissions and other expenses incurred.
- j) under certain market conditions (for example but not limited to the following situations: force majeure event, technical failure, communications network failure, poor or no liquidity, market news or announcements etc.) it may be difficult or impossible to execute an order.
- k) should the equity of the Client be insufficient to hold current positions open, the Client may be called upon to deposit additional funds at short notice or reduce exposure. Failure to do so within the required time frame may result in the liquidation of positions at a loss and the Client will be liable for any resulting deficit.
- l) trading online, no matter how convenient or efficient, does not necessarily reduce risks associated with trading.
- m) there is a risk that the Client's trades in financial instruments may be or become subject to tax and/or any other stamp duty, for example, due to changes in legislation or his/her personal circumstances. The Company does not warrant that no tax and/or any other stamp duty will be payable. The Client should be responsible for any taxes and/or any other duty which may accrue in respect of his/her trades.
- n) before the Client begins to trade, he/she should obtain details of all commissions and other charges for which the Client will be liable. If any charges are not expressed in money terms (but for example a spread), the Client should ask for a written explanation, including appropriate examples, to establish what such charges are likely to mean in specific money terms.
- o) the Company will not provide the Client with investment advice relating to investments or possible transactions in investments or make investment recommendations of any kind.
- p) there may be situations, movements and/or conditions occurring on the weekend, at the beginning of the week or intra-day after the release of significant macroeconomic figures, economic or political news that make currency markets open with price levels that substantially differ from previous prices. In this case, there exists a significant risk that orders issued to protect open positions and open new positions may be executed at prices significantly different from those designated.

- 7.3. The Company is further obliged under applicable regulations to obtain information about the Clients knowledge and experience with trading in financial instruments so that it can assess whether the requested service or product is appropriate for him/her. The Company strongly encourages its Clients to provide all the necessary information as to the knowledge and experience in trading as accurately as possible. If a Client fails to provide sufficient information or fails to provide any information, the Company will not be able to assess whether a Client possesses the necessary knowledge and experience to understand the risks involved when trading with financial instruments offered by the Company. As such, the Company will not be held responsible in case any of the

information or circumstances change, unless the Client promptly notifies the Company. For this purpose, the Company conducts an Appropriateness Assessment Test, which will apply to all interested Clients before providing investment services.

- 7.4. The Company shall assume that information about a Client's knowledge and experience as this will be provided by each Client to the Company as accurate and complete. The Company shall have no responsibility towards the Client if such information is incomplete or misleading or becomes inaccurate and the Company will be deemed to have performed its obligations under applicable regulations, unless the Client has informed the Company of such changes.
- 7.5. Depending on the results of the Appropriateness Assessment Test, the Company will inform the Client as to the risks involved when trading with such financial instruments. The Company may even prompt a Client to open a demo account instead, prior to proceeding and reserves its right to deny the provision of investment services to a Client.
- 7.6. When the Company receives the Client's completed online application form, it may use the information to conduct any further enquiries about the Client as the Company determines under the circumstances and its internal policies and procedures. The Company relies on the information that it is provided by the Client in the online application form or otherwise as being correct and not misleading at all times, unless the Client notifies the Company otherwise in writing. In particular, the Client must notify the Company as soon as possible in writing if any of the details provided to us in the application form or if the Client's circumstances have subsequently changed.
- 7.7. - 7.8. The Company is not to be required (and may be unable under applicable regulations) to accept a person as its Client until all documentation it requires has been received properly and fully completed by such person and all internal checks (including without limitation all anti-money laundering customer identification and due diligence checks) have been duly satisfied. It is further understood that the Company reserves the right to impose additional due diligence requirements to accept Clients residing in certain countries where the risk of money laundering may be higher. During the customer identification and due diligence checks the Company shall apply processes to verify the Client's identity for which (amongst other things) photo identification information will be

required by the Client. In certain circumstances we may require this information to be authenticated by an appropriate third party. The Company requires as a minimum a government issued photo identity document such as a passport, driving license and/or identity card containing the Client's full name, personal photo, and date of birth, ID number and expiry date as well as evidence of the Client's residential address, such as a utility bill or bank statement, for the verification process. The information in these documents should agree with the details submitted in the Client's application.

7.10. The Client's trading account will be considered opened only when the trading account is activated, which means the trading account is not on a read only status and the Client can place his/her order for execution (i.e. the commencement of the business relationship between the Client and the Company). It is understood that the Client needs to pass the assessment and completion of the KYC verification and due diligence procedures of the Company prior to the activation of the Client's trading account.

- 8.5. Subject to the financial instruments traded by the Client, the following charges may be incurred:

8.5.2. Commission

Commissions apply exclusively to forex CFD and metals CFD trading on our Raw Spread and Premium account types. The Client pays a commission when he/she buys and sells a financial instrument. Additionally, commissions may apply to specific instruments depending on the Introducing Broker (IB) under which the Client may register. 9.5. Clients are not allowed to use Swap-free Accounts to make profits from swaps and may not request the payment of any swap amount that has been lost as a result of having a Swap-free Account. 10. Conflicts of Interest

- 10.1. The Company will take all reasonable steps to identify and manage conflicts of interest between itself, including its managers and employees or other relevant persons as well as any person directly or indirectly linked to them by control, and their Clients or between one Client and another, that arise in the course of providing any of the Services under this Agreement, and to organize and control their internal affairs responsibly and effectively.
- 10.2 The Company will manage conflicts of interest fairly, between itself and its Clients, between itself and its employees and between its customers and to organise and control their internal affairs responsibly and effectively in accordance with its Conflicts of Interest policy which is available in the Company's Website.

11. Inducements

- 11.1 The Company shall take reasonable steps to ensure that neither it nor any of its employees or agents either offers or gives or solicits or accepts any inducement that is likely to conflict with any duties owed to its Clients. For this purpose, the Company does not receive or pay any fees, commissions or non-monetary benefits in relation to the provision of the services to or by any third party, except Clients, subject to clause 10.2.
- 11.2 The Company may pay and/or receive fees/commission to/from third parties, provided that these benefits are designed to enhance the quality of the offered service to the Client and not impair compliance with the Company's duty to act in the best interest of the Client. An indicative list of fees/commission to/from third parties which are designed to enhance the quality of the offered service to the Client and not impair compliance with the Company's duty to act in the best interest of the Client may be regulatory levies, legal fees, bank and payment provider fees, liquidity provider's fees, platform fees etc.
- 11.3. A fee, commission or non-monetary benefit should only be paid or received where:
- a) it is justified by the provision of an additional or higher-level service to the relevant Client, proportional to the level of inducements received.
 - b) it does not directly benefit the recipient firm, its shareholders or employees without a tangible benefit to the Client.

- c) it is justified by the provision of an on-going benefit to the relevant Client in relation to an on-going inducement.
- 11.2. The Company shall keep records evidencing the fees, commissions or non-monetary benefits paid or received by the Company which are designed to enhance the quality of the relevant service to the Client.

12. Client Money and Transfer of Funds

- 12.1. The Company ensures to promptly place any Client money segregated from the Company's own accounts and opened with an approved bank and/or a payment provider that has been assessed by the Company and/or approved by the Company's Management. Any Client's money shall be paid into a segregated Client bank account denoted as "Client" bank account.
- 12.2. Unless the Client notifies the Company in writing or otherwise, the Company may pass on Client money or allow another person, such as an exchange, a clearing house or an intermediate broker, to hold or control Client money where the Company transfers the Client money (a) for the purposes of a transaction of the Client through or with that person or (b) to meet the Client's obligations to provide collateral for a transaction (e.g. a margin requirement for a derivative transaction). By accepting this Agreement, the Client gives his/her consent and authorizes the Company, where applicable, to transfer/hold his/her funds to/with other parties or business partners, i.e. liquidity providers for settlement purposes. The Company shall not be liable for the solvency, acts or omissions of any institution with which Client money is held.
- 12.3. The third party to whom the Company will pass money may hold it in an omnibus account and it may not be possible to separate it from the Client's money, or the third party's money in which case the Client will not have any claim against a specific sum in a specific account in the event of insolvency. The Company does not accept any liability or responsibility for any resulting losses.
- 12.4. By entering into this Agreement, the Client agrees that the Company will not pay the Client interest on Client money or any other unencumbered funds.
- 12.5. Any amounts transferred by the Client to the Client's bank account will be deposited in the Client's Account at the "value date" of the received payment and net of any deduction/charges by the Client's bank account providers. In case the Client's account

reaches a stop-out during the processing period of the deposit, the Company bears no responsibility for any losses suffered.

12.6. The Company acts in accordance with international anti-money laundering regulations and local anti-money laundering rules thus the transfer of funds and transactions are based on these rules. For this purpose, Client's withdrawals should be made using the same method used by the Client to fund his/her Client Account and to the same remitter. The Company reserves the right to decline a withdrawal with a specific payment method and will suggest another payment method where the Client needs to proceed with a new withdrawal request or seek further documentation while processing the withdrawal request. Where applicable, if the Company is not satisfied with any documentation provided by the Client or if the company has reasonable grounds for suspecting that a Client violates applicable regulations, then the Company will reverse the withdrawal transaction and deposit the amount back to the Client's bank Account and the Client will suffer the relevant Client's bank account provider's charges.

13. Client's Orders/Instructions and Execution of Orders

13.1. Execution of Orders: It is the Company's approach to take all sufficient steps to obtain the best possible result on behalf of its Clients when executing Client orders on financial instruments offered by the Company or receiving and transmitting orders for execution. The Client understands and acknowledges that the Company will enter into transactions with the Client either as principal (counterparty) or an agent. The Company will be the contractual counterparty to the Client.

13.2. The Company, when executing orders, will obtain the best possible result for Clients, taking into account factors like price, costs, speed, likelihood of execution and settlement, size, market impact or any other consideration relevant to the execution of the order. Where the Company executes an order on behalf of a Client, the best possible result shall be determined in terms of the total consideration, representing the price of the financial instrument and the costs relating to execution, which shall include all expenses incurred by the Client which directly relate to the execution of the order.

13.3. For determining the importance of the execution factors indicated above, the following criteria are also taken into account:

- the characteristics of the Client
- the characteristics of the Client order;
- the characteristics of financial instruments that are the subject of that order;

- the characteristics of the execution venues to which that order can be directed.
- 13.4. The Client understands and confirms that all orders received by the Company from the Client are orders for execution outside a Regulated Market or an MTF.
- 13.5. Client's Orders/Instructions: Orders may be placed with the Company once the Client gets access to the Company's Trading Platform. The Company will be entitled to rely and act on any Order placed on the Trading Platform without any further enquiry to the Client and any such Orders will be binding upon the Client.
- 13.6. The Company's buy/sell prices for a given CFD are calculated by reference to the price of the relevant underlying asset. Third party reputable external resources (i.e. feed providers) obtain prices (buy/sell prices) of the underlying asset for a given CFD. The Company then uses the prices given by the feed providers to calculate their own tradable prices for a given CFD. The Company adjusts the Spread (i.e. the difference between the Buy/Sell prices), hence the prices it quotes to Clients compared to the prices it obtains from third party external reference sources may differ, as they include a Spread adjustment. The Company provides Quotes by taking into account the underlying asset price. The Client acknowledges that such Quotes will be set by the Company at its absolute discretion.
- 13.7. Orders can be placed, executed and modified or removed within the trading hours for each CFD showed on the Company's website, as amended from the Company from time to time and if they are not executed, they shall remain effective through the next trading session (as applicable). The Company shall not be obliged to arrange for the execution of the Client's orders in respect of any CFD out of normal trading hours which appear on the Company's website.
- 13.8. If any tradable instrument becomes subject to possible adjustments, the Company will determine the appropriate adjustment, if any, to be made to the opening/closing price, size, value and/or quantity of the corresponding transaction. The determination of any adjustment or amendment to the opening/closing price, size, value and/or quantity of the transaction (and/or the level or size of any order) shall be at the Company's sole discretion and shall be conclusive and binding upon the Client. For the avoidance of any doubt, where the Client opens positions on the ex-dividend day, the Company has the right to close such positions at the last price of the previous trading day and open the equivalent volume of tradable instrument at the first available price on the ex-dividend day. The Company shall inform the Client of any adjustment or amendment via email as soon as is reasonably practicable.

- 13.9. During the occurrence of a manifest error i.e. a manifest or obvious misquote by the Company, or any market, liquidity provider or official price source on which the Company has relied in connection with any transaction, having regard to the current market conditions at the time an order is placed as the Company may reasonably determine, the Company may amend the details of affected transactions to reflect what the Company reasonably determines as correct and fair and/or declare any or all affected transactions as void.
- 13.10. During periods of abnormal market (volatile) conditions, during news announcements, on opening gaps (trading session starts), or on possible gaps where the reference asset has been suspended or restricted on a particular market, Buy/Sell Stop and Stop Loss orders may not be filled at the requested/declared price but instead at the next best available price. In such case, Take Profit orders below/above Buy Stop/Sell Stop orders or Stop Loss orders above/below Buy Stop/Sell Stop orders during activation will be removed. The same applies when a trading strategy is deemed as abusive, considering that it aims towards potential riskless profit or another strategy deemed by the Company to be abusive as per this Agreement. Accordingly, placing a Stop Loss order will not necessarily limit the Client's losses at the intended amount.
- 13.11. The Company may amend the level of swap rate on a financial instrument at its own discretion, for instance, where the Client holds a position for a period over the defined period in clause 9.4. Furthermore, the Company may offer the possibility to the Clients for swap free trading, however it reserves the right to enable or disable swap free trading at its discretion and/or reverse any cumulative profits generated from such trading and/or charge retrospectively fees that should have been incurred if Swap-free trading was disabled. This may happen when the Client engages in trading strategies that rely on arbitrage opportunities and/or riskless arbitrage and/or swap abuse, i.e. hedging aiming at riskless profit, and/or in cases where the Company considers this as necessary. Notwithstanding the above, a storage amount may apply for Swap-free accounts, where applicable.
- 13.12. The Company prohibits and/or has the right to not allow trading strategies aimed at exploiting errors in prices by taking advantage of internet, connectivity delays and price feed errors, i.e. arbitrage, internal hedging in coordination with other parties, fraud, manipulation, abuse of the negative balance protection rule and/or any other fraudulent activity. The Company reserves the right, at its sole discretion, to revoke any transactions based on fraudulent trading strategies, to make all necessary corrections or adjustments such as to adjust the price spread available to the Client where applicable and/or remove any profit/loss generated. In addition, the Company reserves the right to charge the Client, in case he/she applied any fraudulent activity, with an administration fee up to 10% of

the initial deposit and with a maximum charge at \$1,500 for covering any administration fees as well as any transaction fees imposed by the payment institutions on processing the Client's deposit(s) and withdrawal(s). Furthermore, the Company reserves the right to terminate the Account without prior notice as per the provisions of this Agreement.

13.13. Without limiting the generality of the foregoing, it is absolutely prohibited for the Client to take any of the following actions in relation to the Platform:

- a) use any software which applies artificial intelligence analysis to the Company's systems and/or Platform.
- b) intercept, monitor, damage or modify any communication which is not intended for him/her.
- c) use any type of spider, virus, worm, trojan-horse, time-bomb or any other codes or instructions that are designed to distort, delete, damage or disassemble the Company's systems or Platform or the communication system or any system of the Company.
- d) send any unsolicited commercial communication not permitted under applicable regulations or any other Law.
- e) do anything that will or may violate the integrity of the Company's computer system or Platform or cause such system(s) to malfunction or stop their operation.
- f) unlawfully access or attempt to gain access, reverse engineer or otherwise circumvent any security measures that the Company has applied to the Platform or its systems.
- g) perform any action that could potentially allow the irregular or unauthorized access or use of the Platform or systems.
- h) use the Platform and/or obtain any kind of profit and/or benefit and/or advantage from such use of the Platform, while having the knowledge and/or reasonable belief that there may be any kind of weakness and/or malfunction of the Platform and/or system and/or products offered through the Platform.

13.14. The abovementioned list shall be considered collectively as "Prohibited Actions". The Company reserves all its legal rights in case any Prohibited Action(s) is performed by any of its Clients in accordance with this Agreement. Upon an event of Prohibited Action, the Company, at its absolute discretion, may proceed with the following actions:

- a) restrict and/or block Client access to the Trading Platform.
- b) block and/or revoke the access data and/or access codes.
- c) terminate the Agreement immediately without any prior notice to the Client.

- d) close the Client Account.
- e) disable trade opening and/or closing and/or modification.
- f) take legal action against the Client for any losses suffered.

13.15. If the Company reasonably suspects an abusive trading technique based on the Client's trading strategy and/or any form of prohibited trading techniques, including but not limited to, pip-hunting, use of plug-ins that affect the reliability, smooth and orderly operation of the Company's electronic systems, placing orders prior to the release of financial data, arbitrage, manipulations or a combination of faster/slower feeds, trading strategies aimed at exploiting errors in prices by taking advantage of the internet and/or connectivity delays, internal hedging in coordination with other parties with the intention to create riskless profit gained from abusive trading strategies, riskless arbitrage, gain profit from the Company's possible systems bugs and/or weaknesses and/or malfunction, and/or abuse of the Company's Negative Balance Protection the Company shall immediately proceed with the following actions:

- a) void, cancel or reverse any profits and/or advantages gained or received as a result of the abusive trading transaction
- b) close any Trading Account(s)
- c) terminate the Agreement
- d) suspend and/or terminate the Client Account(s)
- e) revoke any transaction based on fraudulent trading strategies
- f) adjust the price of the spread and/or remove profits or loss generated
- g) charge the Client for the fraudulent activity as per clause 8 of this Agreement
- h) disable Swap-free trading and/or reverse cumulative profits.

It is clarified that trading with high margin utilization and/or using high leverage approximately fifteen (15) minutes before and/or ten (10) minutes after the release of major events and/or market news could be considered by the Company in its own and absolute discretion as abuse of the Negative Balance Protection.

13.16. Clients who performed any of the above actions will be strictly prohibited from opening a new trading Account(s) and trade with the Company. Nevertheless, in cases where a Client may successfully open an Account and trade with the Company due to technical and/or human error, the Company reserves every right to immediately close such Account upon identification, nullify any profit/loss generated and refund the original amount of deposit, excluding any deposit and withdrawal charges.

13.17. Subject to the above, the Company reserves the right to confiscate any profits and/or revenues earned directly or indirectly by engaging in such a Prohibited Action

and/or prohibited trading technique and/or charge the Client additional fees in these cases. Moreover, the Company shall also be entitled to notify any interested third party of the Client's involvement in any Prohibited Action and/or use of prohibited trading techniques, as well as any measures taken by the Company in response.

The Client is responsible to monitor his/her account balance and keep sufficient funds in their Account in order for any open positions to remain unaffected. The Client can request to change his/her account leverage at any time by contacting the Company.

14.3. The Client acknowledges that the Company has the sole discretion to limit the Client's trading account margin and/or leverage and/or stop-out levels at any given time, without the Client's consent, either on a permanent basis or for a limited period of time. Such an event will be disclosed to the Client directly to the registered email address of the Client.

14.4. Every Friday between the hours of 21:00 until 24:00 (GMT+3 in summer and GMT+2 in winter) and occasionally before the release of major economic news, the Company may maintain a maximum leverage on remaining instruments other than forex pairs for any new positions opened during such period which such requirement, if any, will be disclosed on the Company's website.
